Project Details

Name of the Project	FurnitureXpress(Wooden items website)
Language used	HTML,CSS,JS,Bootstrap,mySQL
Description	FurnitureXpress is a modern and responsive e-commerce website dedicated to showcasing and selling premium wooden furniture and decor. The platform provides users with a seamless shopping experience, highlighting handcrafted wooden products such as tables, chairs, shelves, beds, and custom pieces. Designed with a clean and user-friendly interface, the website allows customers to browse by category, view product details with high-quality images, add items to a cart, and securely check out.

Name of the Project	Online Chatbot-Based Ticketing System
Tech-Stack used	EJS, Node Js, Tailwind css, MongoDB, Express js, Python
Description	A web app that uses an AI chatbot to help users book tickets through natural conversation. It handles schedules, seat availability, discounts, and bookings. Admins can manage events and track bookings via a dashboard.
